TAKING TV LIFTS TO NEW HEIGHTS

If you are reading this then one thing is for sure, you are a discerning consumer.

Like many things a TV LIFT is an investment, meant to last a very long time.

Activated Decor's relentless pursuit to manufacture a better TV LIFT is constant, it has always been and continues to be part of our focus.

ABOUT THE PRODUCT

Two years ago Activated Decor sat down with the key personnel in the firm and basically wrote out a wish list of what features would be included if we were to build the "ultimate" TV LIFT CONTROL BOX. We took into consideration what our customers had been asking for and also noted what had been frustrating professional installers.

Two years, thousands of dollars and countless man hours later the

 was introduced, now included with every standard lift sold.

 key features include;

- 1) Remote control is an ALL-IN-ONE, RF and IR your choice, LV or LOW Voltage contact closure is available to you STANDARD: RS232 is also available to you STANDARD
- 2) ABB, AUTO BOUNCE BACK, built in user adjustable interference feature for a SAFE lift, will stop upon sensing interference while descending
- 3) UNIVERSAL control box to all our lifts including rotating lift as well as Single and Dual Stage Lifts
- 4) User programmable set points, total of 4 (UP or UP & Rotated positions)
- 5) Out of Cabinet Safety built in, the lift cannot rotate unless clear of cabinet opening so not to damage TV or Cabinet
- 6) Encoder read positions, extremely precise (550 PPR)

ABOUT THE PEOPLE

Founder and company owner, Jerry Sorbara, has over 25 years experience in the field of Industrial Robotics and Automation. Schooled in Industrial Instrumentation he then worked for two Robotic Parts Manufactures, designing and building robotic work cells and stamping press robotic tending lines.

The team at Activated Décor consists of Technicians and Engineers with many years of background in Electronics, Industrial Process Control and Industrial Automation. Our service technician and assemblers are all also College educated and have second to none work skills and ethics.

We mention this to you as we want you to understand the “**HORSE POWER**” behind the TV LIFTS made by Activated Decor. Ask anyone and you will hear the same thing, “they look **INDUSTRIAL**“, this is no accident!!

CUSTOM APPLICATIONS

Because of the depth in our in-house resources CUSTOM APPLICATIONS are always welcome. We will work with you or your Designers in creating you a mechanism that's right for the job. Scaled AutoCad drawings are generated for your review prior to the build starting.

We have in the past built units that;

- DROP and TILT
- DROP and ROTATE
- DROP, TILT and ROTATE
- FLIP DOWN
- FLIP DOWN and TILT
- Up out of a floor
- Dropping down great distances from the attic or ceiling, 9' +
- Lifting very large TV's, 260 lbs and over
- Used in outdoor applications

..... just to mention a few.

If you have a challenging application, simply let us know, we will be happy to design and build a unit that not only will meet and exceed your expectations but the job will be done in a cost effective manner.

CONCLUSION

Like mentioned at the beginning of this document, you are reading this because you are a discerning consumer. You owe it to yourself to at the very least see what Activated Decor can do for you, email or call us today and allow us to be a part of your special project!!
